Dear Mario:

I hope the enclose<sup>d</sup>, four and a half pages will be acceptable for your purposes. I've given your manuscript a good deal of thought, and I don't really see what I can add to the argument--it's effective as it stands, from my point of view. Very well done.

But it was possible to comment on your comments regarding psychology. You may find them irrelevant or not suitable for what you had in mind. If so, drop them in the wastepaper basket and forget them. If on the other hand you want to use them, but need some change or some further elaboration, let me know. I will hold your manuscript till I hear from you, just in case.

Yours,
