

THE CATEGORICAL IMPERATIVE (OR UNIVERSALIZABILITY CONDITION) PRESUPPOSES  
EGALITARIANISM

CI: "Handle so, dass die Maxime deines Handelns jederzeit Prinzip einer allgemeinen Gesetzgebung sein könnte". (Check!)

In other words: do not behave on the belief that you are privileged and therefore above common morality: instead, value all persons equally, and do not demand from others what you would not be willing to give others. This is straight egalitarianism.
