

## PRIVATE INITIATIVE

One of the most frustrating features of life in a totalitarian state is the lack of private (individual or ~~group~~) initiative of individuals ~~and~~ or free associations of individuals in all sectors of life. One of the most disappointing features of ~~capitalist~~ <sup>capitalist democracies</sup> ~~democracies~~ is that ~~the~~ ~~only~~ private initiative ~~the~~ in economic matters is privileged, often at the expense of ~~the~~ the curtailment of political or cultural freedom.
