

## PROTECTION OF FREEDOM

How do you protect freedom? The traditional method is to curtail the freedom of the individuals intent on freedom. Thus the systems (law courts of law and police force) supposed to protect freedom are requested to curtail it. Should the ~~or~~ threat to freedom be perceived ~~as serious~~ (or just admitted) as serious — ~~as was the case with McCarthyism~~ that will be no obstacle to the ~~creation~~ creation of the very institutions created to protect individual freedom.
